Did you know you can sync your Coastal Bend College email with your Android phone?
Follow these simple steps on your computer to add your CBC email to your Gmail account!

Never miss an alert from Coastal Bend College!
Android users have a Gmail app located on their phones. Iphone users may also have the Gmail app.

Syncing your CBC email to your Gmail enables you to get CBC messages directly to your phone!

Here at CBC we use the student email system to contact our students and keep them informed of activities, events, deadlines, and emergencies. However, most students do not login to their CBC account very often.

By syncing your CBC email with your Gmail, you will find all of your emails in one easy access location.

Never miss an alert from CBC, Student Activities or Financial Aid!

Let’s get started!
This process is much easier if you login to GMAIL on a desktop or laptop computer versus trying to do it through your phone!

There are a couple of corrections you will need to make to your CBC email address when you add it to your GMAIL account, so follow along closely!

For this process, you will need to know your CBC email address and password. If you do not have that information please contact Student Services.
