

Coastal Bend College

Fall Convocation 2012

Why We Are Who We Are.

We exist for the student. Not a question by the way, simply the answer. I champion higher education and community colleges in particular for the role they serve in the lives they change. As an institution, it has a wonderful reputation for making a positive difference in individuals, families, communities and across our country. What impact has CBC had you might ask. How about that of the 200,000 students who have taken a course and the 15,345 who have earned a certificate or degree from Bee County College/Coastal Bend College? We exist for the student... **yesterday, today, tomorrow!**

We exist because of the student. Every industry has to have a product to exist. Every student is our industry product. Fortunately our passion for producing a fantastic, quality-assured, stupendous product lives well past the life of a student to that of a viable community in a new, educated global citizen. I have an unwavering commitment to student success because without them literally means without us. I believe in the talents and contributions of our employees to create a culture that supports and encourages success, for our students and for ourselves. We exist because of the student...**yesterday, today, tomorrow!**

Dr. Beatriz Espinoza
