History

Bee County Junior College District was created by election on November 2, 1965. The election resulted from several years of work to establish a community college for Bee County. Support was shown by residents in an overwhelming five-to-one majority for the creation of the district. The desire for a community college was again demonstrated on December 7, 1965, when district citizens approved a tax to support BCC, and bond issues to build the college. The Board of Trustees changed the college name from Bee County College to *Coastal Bend College* on September 1, 1998. The name change was made because the service area was extended by an act of the Texas Legislature in 1995. The Coastal Bend College service area includes Karnes, McMullen, Live Oak, Bee, Duval, Jim Wells and Brooks Counties, and parts of Atascosa and Kleberg Counties. Bee County College opened in September, 1967, with 790 students, 24 full-time instructors and 11 part-time teachers.

Update-Summer 2020

Coastal Bend COLLEGE

Introduction

The CBC Fact Book is designed to provide an overview of key institutional facts and information regarding CBC students, instructional programs, staff and facilities. It is designed to serve as a single, comprehensive, readily accessible and accurate source of information about CBC and provide answers to some commonly asked questions about the college, including trends over time. Data used to populate the CBC Fact Book are drawn from a variety of sources and may vary based on various data collection practices, parameters and methodologies. The CBC Fact Book is compiled by the Office of Institutional Effectiveness & Research.

CBC Mission

Coastal Bend College is a student-centered community college committed to delivering superb educational and life enriching opportunities to its students and the communities it serves.

Update-Summer 2020

Coastal Bend College Students

Student Profile:

The typical CBC student in 2020 is a part-time female Hispanic student, not on Pell, with an average age of 20 (78% of students are 21 and under). Most students are dual credit students and out of district and 37% of students take less than 6 hours with 75% taking less than 12 hours.

Only 12% of our service area high school graduates enroll in CBC after graduation.

The typical CBC student is more likely to graduate with a technical degree/certificate than an academic degree. The majority of those are in Welding certificates and Health Occupations. 27% of degree/certificate seeking cohort will finish in 3 years. 40% of the cohort will have graduated in 6 years.

Update-Summer 2020

Average net price of attendance for full-time, first-time, degree/certificate-seeking undergraduate students who paid the in-state or in-district tuition rate and were awarded grant or scholarship aid: 2015-16 - 2017-18

Average amounts of awarded grant or scholarship aid from the federal government, state/local government, or the institution, or loans awarded to full-time, first-time degree/certificate-seeking undergraduate students, by type of aid: 2017-18

NOTE: Any grant aid above includes grant or scholarship aid awarded from the federal government, state/local government, or the institution. Federal grants includes Pell grant and other federal grants. Any loans includes federal loans and other loans awarded to students. Average amounts of aid were calculated by dividing the total aid awarded by total number of recipients in each institution. N is the number of institutions in the comparison group. Medians are not reported for comparison groups with less than three values.
