INTERNET STUDENT INFORMATION

General Information:

Please be aware that an Internet Course will usually demand more of your time than a regular lecture course will. Therefore, give yourself plenty of time for the course. There will be lots of reading involved in Internet classes. People who do well in Internet Courses are highly motivated, self-starters, non-procrastinators, and are computer and Internet literate.

Please carefully read the following information before you start your Internet course. The information below will hopefully help you understand how to access your Internet Course(s) and what to look for.

We at Coastal Bend College want you to have a positive experience while you are with us and want to help you succeed to the best of our ability.

****

Coastal Bend College uses Blackboard to access your online course.

To login to Blackboard:

Go to our Coastal Bend College homepage at www.coastalbend.edu and locate the **Blackboard** link at the top right of the page. Click once on the link to get to the Blackboard login page.

Enter the following to login:

Username: *your last name plus the last four digits of your SSN*
Password: *your CBC Student ID number without the dashes (***if you do not know your CBC Student ID number, refer to the instructions listed below to login to CampusConnect***)*

Click **Login** to login.

Please be aware that all new students will be given access to an online Blackboard orientation course prior to the beginning of class. This orientation will provide the necessary training needed to use the Blackboard platform. It is to your advantage to complete the requirements of this orientation prior to the first day of classes.
