

Associate of Applied Science Degree

Traditional RN Program Information

Thank you for your interest in the Traditional RN Program at Coastal Bend College.

The Traditional RN Program teaches skills to become a Licensed Registered Nurse with an Associate of Applied Science Degree. This program is held **ONLY** at our Beeville Campus.

Classes are online Monday through Thursday with varied hours, depending on classes needed. The program begins in the Fall and will take four semesters (two years) to complete with the summer's off from nursing classes.

Pre-requisites are recommended for this program, but are not required. Please see our pre-requisite list and the degree plan on this website. A computer course, BCIS 1305 (**Competency Exam), with a test out option of 70%, in computer literacy is required for all degree students,

A TEAS score (50% or higher) is required. The TEAS test may be scheduled through our nursing department's support specialist on the Alice, Beeville or Pleasanton campuses. The TEAS test is a multiple-choice assessment test measuring basic academic preparedness in Reading, Math, Science, and English. The TEAS exams are given every Friday throughout the year at each campus. Please call to schedule a date. Once the TEAS exam is passed, an application packet will be given.

Clinical days are scheduled per semester. The program is dynamic and makes changes to ensure that we are meeting the Texas Board of Nursing and competency requirements and is subject to change.
