Coastal Bend College Nursing Program Vision, Mission and Values

Vision
In accordance with the Vision of Coastal Bend College, the Nursing Program provides individuals with the knowledge and skills necessary for nursing graduates to deliver safe and competent care and be leaders in the profession.

Mission
The mission of Coastal Bend College Nursing Program is to provide quality nursing education through a curriculum that reflects advances in nursing practice, current health trends to meet the needs of the health care community.

Values
Coastal Bend College Nursing Program supports the core values of Coastal Bend College: Learning, Innovation, Excellence, Leadership, Diversity, Respect, Service, Integrity, Collaboration, and Communication.

Strategic plan of Coastal Bend College Nursing Program:
- Provide a quality nursing education
- Facilitate restoration of the student’s holistic balance
- Ensure transparency of program policies and procedures
- Ensure consistency of the program

**Accommodation**
Special accommodations will be made for students with documented special needs. Documentation of accommodations must be presented from the office of the Vice President of Student Services to the instructor at the beginning of each course. It is the student’s responsibility to seek documentation and to present it to the instructor.

**Adherence to Policy**
Students shall:
1. Adhere to Coastal Bend College policy outlined in the College Student Catalog as well as those listed in this Coastal Bend College Nursing Handbook.
2. Obtain required equipment and supplies
3. Accept clinical assignments in coordination with the instructor.
4. Follow policies and procedures at the assigned health care facility.
5. Coastal Bend College Nursing Programs students must successfully pass Capstone courses
6. Participation in Pinning/Graduation is strongly recommended.

**ADA Statement**
No qualified individual with a disability shall, by reason of such disability, be excluded from participation in or be denied the benefits of the services, programs, or activities of the College District, or be subjected to discrimination by the College District. Nor shall the College District exclude or otherwise deny equal services, programs, or activities to an individual because of the known disability of an individual with whom the individual is known to have a relationship or association. 42 U.S.C. 12132; 28 CFR 35.130(g).
See at: **GL (Legal)**

Coastal Bend College Nursing Program will honor the guideline of [The Americans with Disabilities Act: Implications for Nursing Education](#)

**Compliance with Americans with Disabilities Act**
The Core Performance Standards recommended by the Southern Council On Collegiate education for Nursing will guide the decisions about students with disabilities. If a student believes he or she cannot meet one or more of the standards without accommodations, it is the responsibility of the student to inform nursing faculty of the need for reasonable accommodations at the beginning of the nursing program. The student must notify the faculty if status changes.

## Attendance Policy

Attendance at class and clinical is an expectation for all vocational nursing students. The faculty understands that life events occur which require an occasional absence from either class or clinical, however these must be limited for quality education to occur. Survey of work sites indicates attendance policies, which are in place to assure quality client care. The program has adopted the following policy, which reflects workplace expectations as identified by the advisory committee and by survey. The program policy closely reflects the policies of advisory committee members who are employers of licensed vocational nurses.

Students may miss
- Fall & Spring – a total of 24 combined classroom and clinical hours. The student may miss only 16 clinical hours.
- Summer – a total of 20 combined classroom and clinical hours. The student may miss only 16 clinical hours.
- Tardy – class will start at the stated time. Students not present at the stated hour are considered tardy. The minimum amount of time for tardiness is one hour.

Note: Clinical hours can occur in the clinical lab and/or at the clinical site. It is the responsibility of the student to clarify these time frames with faculty.

Please refer to [Coastal Bend College Student Handbook](#) sections “Dropping Classes”/”Grading System”) for clarification regarding being dropped and receiving a grade of “F” or “W”.

10
Tardiness
The class starts at 8 a.m. The student arrives after 8 a.m. but before 9 a.m. The student is considered one hour absent. One hour of missed time will be recorded. The student is required to sign the absence record on return. The signature indicates the student acknowledges the absence and is aware of the accumulating hours. When the student has exceeded the allowed hours of absence, the student will be referred to Absence Committee of the Coastal Bend College Nursing program(s).

Sleeping
No sleeping in class or lab/clinical. This constitutes absence. A minimum of one hour absence will accrue. The student will be asked to leave the classroom/lab setting and may be allowed to return after the next break at the instructor’s discretion.

Clinical Tardy/Absence
Failure to arrive at the clinical site at the scheduled time will result in accrual of absence time. Students who are more than one hour late to the clinical site will not be allowed to remain and will be counted absent for that entire clinical rotation. Example: If you are scheduled to arrive at 6:00 am and you arrive at 7:05 you will be sent home and docked the clinical hours for the day. Students are not allowed to leave earlier than their scheduled clinical time and must take a lunch break.

Notification of Clinical Absence
Students anticipating a clinical/lab absence must notify the assigned facility/unit and the clinical instructor assigned to that facility/unit. It is the student’s responsibility to record the name of the person receiving the absent call for purposes of verification. Failure to notify the instructor constitutes unprofessional behavior.

- A student who is absent will have the hours deducted that corresponds to the clinical rotation. This may be 6-12 hours.
- The student may be placed on clinical probation for failure to call and notify instructors of absence.
- The student must notify instructor personally. A peer, spouse or significant other report will not be accepted.
- The clinical evaluation will reflect the absence and no credit will be received for the day.
- Clinical time and lab time may be the same (check your schedules).
- A second offense of no call, no show, may be grounds for being dropped from the program.
- In a preceptor clinical, the student must notify the preceptor, the nursing unit and the instructor at least one hour before the intended absence.

Student Pregnancy Policy Statement
- A student who is pregnant may participate in the areas of clinical requirements as stated in the course syllabus as long as her physical health status does not prohibit satisfactory completion of clinical assignments.
• Students who are pregnant must inform the assigned clinical faculty prior to the clinical assignments of the student. Health and agency regulations determine clinical placement of students during a pregnancy.
• The safety of the pregnant student is important. Clinical assignment in areas were radioisotopes or x-ray therapy is administered is prohibited. Specific patient conditions and/or treatment of certain patients may be harmful to the student and/or fetus.
• Students who deliver during the semester must present in writing an official statement from the health care provider in support of “readiness to assume clinical assignments”.
• All course and clinical assignments must be met at the end of the semester. No incompletes are permitted.
• Coastal Bend College Nursing Program or its affiliated clinical agencies does not assume any responsibility for any harm that might occur to the pregnant student or to the fetus.

Excused Absences
Any absences due to illness, attendance at college approved activities, and family or other emergencies constitute excused absences and must be supported by documentation presented to the instructor prior to or immediately upon the student’s return to class. Students are always responsible for all oral and written examinations as well as all assignments (e.g., projects, papers, reports) and must comply with the respective faculty member’s course protocol (syllabus, outlines, etc.). Absence hours will accrue. If absence hours exceed amount allowed during that semester, the case will be referred to Absence Committee for resolution. (Refer to attendance policy)

Absences on Religious Holy Days
In accordance with Texas Education Code, Section 51.925, subchapter (Z), a student may be absent from classes for the observance of a religious holy day and will be permitted to take missed examinations and complete missed assignments provided the student has notified the professor of the planned absence in writing and receipt of the notice has been acknowledged by the professor in writing. “A religious holy day means a holy day observed by a religion whose place of worship is exempt from property taxation” under the Texas Tax Code, Section 11.20.

Religious Accommodation Nursing Students
Coastal Bend College Nursing Program will follow the policy and guidelines (regarding Religious Freedom and Religious Holidays) as specified in the Coastal Bend College Student Handbook/Catalogue. Any absence of the student from classes or examination for religious reasons does not relieve students from responsibility for any part of the course work required during the period of absence. If the student missed a class and or clinical time, it will be counted as an absence. (Refer to attendance policy)
Excused Absence for Military Personnel Called to Active Duty

HB 1630 of the 79th Texas Legislature requires institutions of higher education to grant excused absences for students called to active military service. The legislation also establishes the maximum period for which student may be excused at no more 25 percent of the total number of class meetings, excluding the final exam. Faculty members are required to work with a student who has received military orders to enable the student to complete the course work whenever it is reasonably feasible for the student to do so. If a student receives military orders for an extended period of time more 25 percent of the total meeting of class meetings/clinical and it is highly likely that the student will miss most of the class sessions in the course, the student would be well advised to drop the course. If the student receives military orders late in the term, the student would be well advised to withdraw from the term.

Students will sign a “Military Withdrawal Contract” stating that it is their responsibility to contact each of their instructor’s prior to leaving for active duty so that they can discuss which assignments/projects/examinations will need to be completed once they return. The faculty member(s) will work with the students to establish a reasonable time frame after the absence for the completion of any assignments/examinations.

Upon returning from active duty, students must contact the College Registrar’s Office. That time, the students’ “Short Term Military Withdrawal Code” will be removed and the students will complete their course(s) requirements as outlined within their Military Withdrawal Contract. Should students fail to satisfactorily complete the assignment(s) or examinations within a reasonable time after the absence, the faculty member will have the right to issue a final performance grade based on the work that has been completed.

Students who wish to dispute the process regarding this policy will follow the informal procedures listed in the CBC Student Grievance Policies. If the informal procedure did not resolve the grievance, then students may seek review under the formal grievance procedure. Students who receive federal student aid benefits (Pell Grant, SEOG, Stafford Loan) could be required to repay a portion of the financial aid. Additional information, Financial Aid and Excused Absence for Military Personnel Called to Active Duty, will provide to such students as an attachment to the Military Withdrawal Contract.

Please refer to Coastal Bend College Student Handbook Veteran’s Affairs section for further clarification.

Absence Committee

Appeals of the attendance policy will go to the Costal Bend College Nursing Program Absence Committee. The Absence Committee’s ruling will be final and cannot be appealed.

Purpose of the Committee

- Determine extenuating circumstances, if any, related to student absence.
- Determining if the student should be allowed to remain in or be dropped from the program.
• Make recommendations for either remaining in the program or for re-entry to the program.

Committee Members will consist of:
• Two student peers – appointed at the beginning of each semester.
• One representative from Coastal Bend College Administration (or delegate selected to act on the administrators’ behalf in his/her absence).
• One representative from Coastal Bend College Counseling.
• One nurse or person representing administration from the community.
• Must have at least 5 members present.
• A nursing instructor will be present to give input as requested by the committee, but will have no vote on the committee.

Student’s responsibility prior to committee meeting:
• Review and sign attendance record.
• Attach copies of supporting documentation to attendance record.

Student’s responsibility to bring to the meeting:
• Copies of supporting documentation, such as doctor’s notes, court documents, etc.
• Any witnesses to the facts

Committee member responsibilities will:
• Review program absentee policy.
• Review student’s absence record to include: number of classroom hours missed, number of clinical hours missed, number of times the student has been before the absentee committee.
• Review reason(s) given by the student for the absences
• Review whether student followed policy by calling in prior to absence.
• Review whether absence and number of hours could have been avoided.
• Question(s) may be directed to the student, but the conversation should not be allowed to stray from the absences. The chairperson will impose a time limit usually ~ 10-15 minutes. Questions related to the student’s attendance might be directed to faculty. (Grades or other issues unrelated to the absence are not to be discussed). The student may be present and allowed to respond to the instructors’ comments.
• After discussion, the student is dismissed for voting.
• The Committee Chair will indicate voting by ballot or by show of hands.
• Committee Chair will open the floor for discussion on the possible recommendation(s).
• The Committee Chair will collate the votes and recommendations and review with the committee.
• The student will return to the committee room.
• The Committee Chair will inform the student of the Committee decision and recommendations.
• The Committee Chair, the Director of Nursing Education or the Campus Lead Instructor will provide the student with written notification of the Committee decision.
• Notification will follow within seven (7) days of the Committee meeting.
Notification Process

- The Director of Nursing Education or the Campus Lead Instructor will notify the student of the Vocational Nursing Absence committee meeting.
- The student must bring to the committee any documentation or witnesses relating to the cause of the absence. Examples include, but are not limited to: doctors excuse forms, court documents or persons who witnessed the accident.
- During the period of time the student is awaiting the committee decision, the student may attend scheduled classes/clinical.
- The student understands that a grade, and other course work accomplished during the time between the violation and Committee decision, is contingent upon the committee’s decision.

The student will receive a grade of “W” or “F” if the committee finds the student out of compliance with the Vocational Nursing attendance policy. A “W” or “F” grade constitutes being dropped from all Vocational Nursing classes for the current semester.

Meeting Minutes

The Committee Chair or designee will provide written outcomes of the meeting. Student and program confidentiality will be maintained.

Background Checks

All students are referred to the Board of Nursing rules and regulations regarding eligibility for licensure. All prospective nursing students will undergo a criminal background check conducted by the Board of Nursing. Evidence of a clear background or a completed Declaratory Order from the Board of Nursing must be received in the Coastal Bend College Nursing Department prior to the start of the program (the deadline date will be indicated by letter to each prospective student).

Only those students with clear background or those with a completed Declaratory Order will be considered by the selection committee.

The following histories will disqualify an individual from consideration for the clinical rotation.

1. Felony convictions/ deferred adjudications for the sale, possession, distribution, or transfer of narcotics or controlled substances.
2. Misdemeanor convictions or felony deferred adjudications involving crimes against person (physical or sexual abuse).
3. Misdemeanor convictions related to moral turpitude (prostitution, public lewdness/exposure, etc.).
4. Registered sex offenders.
BON-NCLEX Process

During the third/final semester of the nursing program the student will be responsible for implementing and following the procedure to take the NCLEX exam. This consists of the following:

1. Apply for application through the BON website http://www.bon.state.tx.us at least 120 days prior to graduation. Any student having to submit a Declatory Order will not be allowed to apply online and must send in a paper application.
2. Application for the Nursing Jurisprudence Examination, if not completed in the Professional Development Course. Available from http://www.bon.state.tx.us
3. Completing the process of scheduling for eligibility to take the NCLEX through the testing center at least 30 days prior to graduation @ WWW.VUE.COM/NCLEX
4. Paying all fees associated with this process.
5. Completing and submitting fingerprint cards if applicable.
6. Any and all steps concerning the BON and NCLEX testing procedure is the student’s responsibility.

Capstone

The purpose of Capstone is to ensure that all nursing students who graduate from Coastal Bend College have the knowledge, skills and ability to provide safe, competent nursing care. The priority of the nursing program is to protect the public from harm. To do so, the program will follow the criteria below to identify and remediate those students who are unable to demonstrate safe, competent nursing care. It is expected that the graduate of the Nursing Program possess both the academic knowledge and the skills competency to perform entry level nursing care in a safe and effective manner.

Capstone is included in Clinical Course VNSG 2462 in third semester. Please refer to the VNSG 2462 grading rubric below:

<table>
<thead>
<tr>
<th>Clinical Evaluation</th>
<th>35% of course grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Capstone Computerized Comprehensive Exam</td>
<td>30% of course grade</td>
</tr>
<tr>
<td>Capstone Skills (Level I, II, III)</td>
<td>35% of grade</td>
</tr>
</tbody>
</table>

Students must have a minimum course grade of 75% to pass this and all courses.

Specific Procedures of Capstone

Practice Capstone exercises will be held throughout the program. After each practice session, students will be apprised of areas requiring remediation. Faculty will assist students in developing remediation strategies. It is the students’ responsibility to make arrangements with faculty for assistance.
Capstone Computerized Comprehensive Exam
The passing score is based on the current probability of passing the NCLEX examination at the 87-90% range.

Capstone Skills [Level I, II, III]
The Capstone skills check off will consist of three (3) Level I skills, two (2) Level II skills, and two (2) Level III skills. The student must pass all three levels. Level I skills will be checked off at the student’s home campus/site. Level II and Level III skills will be checked off by instructors of a different campus/site on the day of Capstone. Location and date of Capstone Level II and III will be to be announced each year. All vocational nursing students must participate in Capstone.

Each skill will be graded individually and averaged at the end for a final Capstone skills score.
- Pass on first attempt = 100 points
- Pass on second attempt = 80 points
- Pass on third attempt = 50 points
- Fail = 0 points

Your grade will be multiplied by 35% to determine the value for grading purposes for Capstone.

Student Failure at Capstone
On the day of Capstone, students will be given one opportunity to successfully repeat those skills in a particular level that were failed. Repeat skills will be evaluated by an instructor who was not involved in the initial attempt.

Students who fail to master the skills on the second attempt will be offered a third attempt within two weeks of Capstone and must be evaluated by a different instructor not involved with prior attempts.

Students who fail the computerized portion of Capstone will be provided one additional opportunity to prove proficiency. Students will be required to develop an instructor supervised remediation plan prior to repeating the computerized tests.

Students who fail any of the capstone skills exercises after repeat efforts will receive a zero for that exercise and will be reflected in the course grade as stated above in the grading rubric.

Cellular Phones/Other Electronic Communication Devices
Electronic communication devices are absolutely NOT allowed in the clinical site/clinical lab and/or classroom at any time. If a cell phone goes off during class, a minimum of one hour absence time will be deducted and the student may be asked to leave the class until the next break. If a cell phone or other electronic device is found or goes off during an exam, the student will be docked one (1) hour absence time and 10 points will be deducted from that exam. If you are found with a cell phone at the clinical site/clinical lab you will be asked to leave and hours will be deducted from your clinical hours. These devices are to be left in your car while attending
the clinical rotation. Use of cell phones for any emergency situations must be previously approved by instructor on a per case basis.

Clinical

Experiences
Upon successful proof of competency of clinical skills the student will be allowed to participate in at the on-site clinical setting.

1. Clinical experiences will be rotated through regional healthcare facilities.
2. Clinical assignments are correlated with classroom presentations.
3. Experiences will include the nursing care of persons with acute, chronic, aging illnesses and rehabilitative care.
4. Students will participate in instructor supervised patient teaching.
5. Students will be expected to participate in clinical conferences directed by the clinical instructor/preceptor.
6. Students showing signs and symptoms of infections will be asked to leave the clinical setting. They will not be able to return to clinical until signs and symptoms have cleared.
7. Students, who have been absent due to illness or injury, may be required to have a physician’s or healthcare provider’s release in order to return to clinical/class.
8. Additional guidelines are located in each clinical syllabus and in the Preceptor Packet

Competence
Patients have a right to expect safe, competent care. Students will not be allowed to go to the clinical site until the required skills for the specified level are evaluated by the faculty for competency and safe performance. The student will have three opportunities to prove competency on each skill in the laboratory setting. The first two attempts will be performed at the student’s home site by different instructors. If the student fails the first two attempts to prove skills competence, the student must make arrangements to check off with an instructor from a different campus within a time specified by the instructor. A student, who cannot master the safety and competency standards in the skills lab, will be assigned a failing grade and may be dropped from the skills or clinical course.

If, after successful skill(s) competency check off in the laboratory, a student cannot perform a skill safely and competently at the clinical site, the student will be required to leave the clinical site and schedule time in the lab for remediation. Absence time will accrue when the student leaves the clinical site.

The student must be able to demonstrate the skill in a satisfactory manner in the lab. The following guidelines will be used:
1. The instructor will devise a counseling plan. The counseling plan will include standards to be demonstrated, a time frame for successful demonstration of the skill(s), and disciplinary action which may be imposed for failure to meet the timeline for successful demonstration.
2. The student may practice the skill(s) at any time the lab is available.
3. It is the student’s responsibility to arrange for supervised practice with an instructor.
4. If the student is unable to demonstrate the required skill(s) within the specified timeline, the student will not be allowed to return to the clinical site.
5. Students unable to return to the clinical site will be given a failing clinical grade and the student will be dropped from the course/program.
6. To assist students to maintain the highest level of competence, faculty can require a student to demonstrate a previously learned skill at any time.

Clinical/Lab Safety
The laboratory and clinical sites are for teaching purposes. It is important that the nursing student understand and demonstrate proficient performance of standard precautions prior to performing procedures in the laboratory setting and at the actual clinical site. These areas pose a possible inherent risk of exposure to blood and/or blood containing bodily fluids, thereby risking exposure to microbial infections, including but not limited to Hepatitis B and human immunodeficiency virus (HIV). By accepting a position into the nursing program, the student consent to such laboratory practicum and agree to hold Coastal Bend College, its agent, employees and students, free and harmless from any claims, demands or suits for damages from any injury or complications which may result.

For safety, the laboratory setting will be managed by instructors as a teaching unit and will supervise skills practice and competency check offs. Coastal Bend College faculty and clinical preceptors will supervise clinical sites.

In the event of an accidental exposure to blood and bodily fluids (including needle sticks) it is the responsibility of the student to seek medical care. Upon exposure, the clinical supervisors will notify the Director of Nursing Education. The Director of Nursing Education, or designee, will notify Student Services of the incident. Prophylactic care for needle stick injury shall follow CDC guidelines.

It is the student’s responsibility to maintain health insurance while enrolled in the nursing program. Coastal Bend College will not be responsible for costs incurred by the student due to exposure to blood and bodily fluids, and due to accident or injury while engaged in nursing program activities.

Complaint Procedures for Nursing Program
Students with complaints/concerns about issues within the nursing program must follow the established chain of command and must present these concerns in writing. Complaints not resolved at the nursing program level should follow the Complaint Procedures as listed in the Coastal Bend College Handbook and Student Catalog.
Classroom/Clinical/Lab Demeanor

- Disruptive behavior will not be tolerated in the classroom, lab, or at clinical. Students displaying disruptive behavior will be required to leave the classroom, learning lab or clinical site. Absence time will accrue (see attendance policy). If the disruption occurs in a clinical or learning lab environment, this will be reflected on the clinical evaluation.
- No food will be allowed in the classroom or lab during lecture or clinical learning events.
- Faculty/CBC are not responsible for personal items left in the classroom/lab/clinical site.
- No sleeping or non-class related conversation with other students when class is in session. Sleeping constitutes absence (see attendance policy). Infractions will result in the student being asked to leave the classroom and docked a minimum of one hour absence. The student may return after the next break (at the instructor’s discretion).
- The laboratory is a simulated clinical experience (Nursing resource lab). Students will show the same regard and respect for the mannequin patient as for a real patient. Disrespect in a learning situation will be reflected in the course evaluation. Students are expected to be careful with the learning manikins and equipment. Breakage due to carelessness may result in a charge to the student for repair.

Code of Professional Conduct

The Code of Professional Conduct consists of two sections: Professional Obligations and Professional Ideals. Failure to meet the professional obligations represents a violation of the Coastal Bend College Nursing Program Code of Professional Conduct. Alleged infractions of the obligations or the failure to meet the professional ideals may be grounds for dismissal from the program.

“Obligations” refer to necessary professional behaviors that are required by the ethical foundation of nursing practice.

“Ideals” refer to desirable professional behaviors that professionals at all levels should attempt to acquire because they enhance professional excellence.

Professional Obligations (Include but not limited to the following)

1. Treat patients, colleagues and other health professionals, (fellow) students and instructors with the same degree of respect you would wish them to show to you.
   a) Avoid offensive language verbally or in writing in all settings.
   b) Do not harass others physically, verbally, psychologically or sexually.
   c) Do not discriminate on the basis of sex, religion, race, disability, age or sexual orientation.
   d) Do not knowingly mislead others.
   e) Do not cheat, plagiarize, or otherwise act dishonestly. See Coastal Bend College Policy on Line regarding Student Conduct/Scholastic Dishonesty as well as Discipline and Penalties.
   f) Do not abuse special privileges, e.g., shopping or looking at pornographic websites on school computers, making unauthorized long-distance telephone calls.
   g) Do not criticize the nursing or medical decisions of colleagues in the presence of patients.
2. Treat patients with compassion, kindness, gentleness and dignity.
   a) Respect the privacy and modesty of patients.
   b) Respect patient confidentiality.
   c) Avoid patient involvement when you are ill, distraught, or overcome with personal problems.
3. Be aware of your personal limitations and the deficiencies in knowledge and abilities and know when and whom to ask for supervision, assistance or consultation.
4. Report serious breaches of the Code of Professional Conduct to the appropriate person
5. Indicate disapproval or seek appropriate intervention if you observe less serious breaches
6. Do not destroy, damage or misuse property of Coastal Bend College or any clinical affiliation.
7. Adhere to local, state and federal laws and regulations.

Professional Ideals (Include but is not limited to the following)
1. Attempt to cultivate and practice clinical virtues, such as caring, empathy and compassion
2. Notify the responsible instructor if something interferes with your ability to perform clinical tasks effectively
3. Learn from experience and grow from the knowledge gained from errors to avoid repeating them
4. Students should attend scheduled classes and complete assignments in a timely manner
5. Cooperate with other students and members of the health care team in clinical activities
6. Be generous with your time to answer questions from patients, patients family members or staff members
7. In case of absence or tardiness, the nursing student will contact the appropriate clinical instructor designated for that site, at least one (1) hour before their scheduled time of arrival

Patient Abandonment
Patient abandonment constitutes unprofessional behavior. Students who abandon patients (i.e. leaving the unit without reporting to instructor to go to lunch or on break) will receive no credit for the day’s activities and disciplinary action will result. The student will receive a Student Performance Counseling/Warning Class III.

Refusal to Provide Patient Care
Students in the Nursing program are expected to provide care to assigned patients. If refusal to care for a particular patient occurs, faculty will provide a review of the Nursing Code of Ethics and counsel the student.

Violations of Code of Professional Conduct
• First infraction- student will be given a clinical warning level II or III depending on the nature of the infraction.
• Second infraction-may lead to dismissal from the nursing program.
If at any time a student is cited for intemperate use or abuse of alcohol or drugs, is involved in criminal behavior; either violent or non-violent directed against persons, property or public order and decency, is diagnosed or treated for chemical dependency, mental illness or diminished capacity and or demonstrates a lack of ‘good character’, he or she must report the act or behavior to the Director of Nursing and may be dismissed from the program (Texas Administrative Code Title 22 Chapter 214.8, 215.8).

**Failure of the student to disclose infractions to the Department Director within 5 business days will result in dismissal from the nursing program.**

The Coastal Bend College Nursing Program will follow Coastal Bend College policy under **Student Rights and Responsibilities – Student Conduct as defined by Policy on Line FLB (Local)-AJC**; especially but not limited to: Scholastic Dishonesty, Disorderly Conduct Responsibility, Prohibited Conduct, Discipline, Publication.

The Coastal Bend College Nursing Program will also follow Coastal Bend College policy under **Student Conduct – Alcohol and Drug Use as defined by Policy on Line FLBE (Local)-X**.

The Coastal Bend College Nursing Program will also follow Coastal Bend College policy under **Discipline and Penalties as defined by Policy on Line FM (Local)**; especially but not limited to Penalties for Student Misconduct, Suspended or Expelled Students, and Disciplinary Record.

**Confidentiality (HIPAA)**

Patient information from any source and in any form (such as paper, verbal communication, and electronic sources) is confidential. The nursing student shall protect the privacy and confidentiality of patient information and access to this information only if needed to perform safe, competent nursing care. Failure to maintain patient confidentiality may result in being dropped from the Vocational Nursing program.

**Social Networking Policy**

Students who fail to abide by the following social networking policy will be subject to disciplinary action including dismissal from the program:

1. **Do not** identify patient by name or post information that may lead to their identification including but not limited initials, age, gender, social status, name of health care agency, diagnosis, specific tests or procedures performed and physical and/or psychological condition. Identifying patients and family members would be a serious violation in the Health Insurance Portability and Accountability Act (HIPAA). It is possible that someone could identify the patient and the patient’s family based on context.
2. **Do not** take photos or videos of patients or their family members on personal devices, including cell phones. Students are strictly prohibited from transmitting by way of electronic media any patient related image.

3. **Do not** have online contact with patients or their family members. Online contact with patients or their family members is a boundary violation. The fact that a patient or family member may initiate contact does not permit the student to engage in a personal relationship with patients and/or their family members.

4. **Do not** post sexually explicit photos.

5. **Do not** post photos of manikin parts used for learning skills.

6. **Do not** post photos of skills performed in the clinical laboratory by faculty or students.

7. **Do not** make libelous, slanderous, bullying, threatening, harassing, profane, obscene, sexually explicit, racially or culturally derogatory, homophobic, or other offensive comments.

**Dismissal from the Coastal Bend College Nursing Program(s)**

Reason for dismissal from Coastal Bend College Nursing Programs include but are not limited to:

1. Evidence of actual or potential harm to patient or the public
2. Criminal behavior whether violent or non-violent, directed against persons, property or public order and decency
3. Intemperate use, abuse of drugs or alcohol, or diagnosis of or treatment for chemical dependency, mental illness, or diminished mental capacity
4. Violations to the Code of Professional Conduct (including Plagiarism)
5. The lack of good professional character as evidenced by a single incident or an integrated pattern of personal academic and/or occupational behavior
6. Failure to pass courses and/or clinical work with a grade at or greater than 75% per syllabi requirements
7. Failure to master the safety and competency standards in the skills lab will be assigned a failing grade and may be dropped from the skills or clinical course.
8. A second offense of no call, no show at clinical.
9. Failure to abide by the confidentiality and social networking policy
10. A student who indicates persistent refusal to care for a particular type of patient will receive further counseling regarding the appropriateness of nursing as a career choice and may be dismissed from the Coastal Bend College Nursing Program.
11. Failure of the student to disclose Code of Professional Conduct violations to the Coastal Bend College Nursing Programs Director within 5 business days

**Dress Code**

Dress code for the classroom is any scrub set and closed shoes unless otherwise specified by campus/site. Revealing clothing is NOT allowed.

**Personal Appearance/Hygiene**

1. The student must maintain a clean and healthy appearance.
2. The student’s breath must be free of offensive odors. Avoid tobacco, alcohol, garlic or onion before coming to the clinical site.

3. The student must keep hands clean and smooth; fingernails must be clean and neatly trimmed.
   - Nails should not extend past fingertips.
   - No nail polish or artificial nails.
   - Hand lotion should be used to prevent chapped, cracked hands and hang nails.

4. Student’s make-up must be conservative.

5. Male students must shave daily before clinical.

6. The student must wear a clean, neat professional hairstyle.
   - Hair should be neatly arranged in such a manner as to not extend over the shoulder onto the patient or student’s face. No loose ponytails or braids.
   - Bangs should not contact upper border of protective lenses/eye glasses.
   - Hair clips, hair scrunches, and barrettes should be as close to hair color as possible. Students will be dismissed from the clinical site to correct any variance from hair standard. The incident will be documented and an absence will be recorded.

7. Male students must have short, trimmed haircuts.

8. Student should not wear strong scents when working with patients. (I.e. Perfume, body powders, lotions, aftershave, etc.)

9. Smokers or individuals who live with smokers must pay particular attention to personal hygiene. The body, especially hair and clothing should be completely free of tobacco odor. The student must ensure that his/her hands are free of odors such as tobacco, onion and garlic, which are offensive to many patients.

10. Hair color should be natural and non-distracting while attending the clinical sites. This includes obvious coloring of bright reds, purples, orange, and greens. This can include moderate to severe blond highlighting to dark hair.

11. NO jewelry with the exception of a working watch with a second hand and a plain wedding band is allowed. Microorganisms can harbor under the ring, and you must take it off each and every time you wash your hands (which is often). You take a chance of losing your wedding ring at your own personal cost. CBC or the clinical affiliation is not responsible for lost property.

12. NO “love bites”, “hickeys”, “and tattoos” may be visible while attending the clinical sites. These must be covered at all times while at the clinical site. If not, the student will be sent home until the infraction is corrected and the appropriate time will be docked. Bandages used to cover tattoos must be nude/flesh color.

13. NO gum chewing during clinical/lab time.

Clinical/Lab Uniform Policy
All rules of dress and appearance will apply when in full uniform, including rules for hair. Students at clinical sites who do not adhere to the uniform policy will be asked to leave the site until the deficiency is corrected. Please note that this also includes any disparity regarding professional appearance. Absence time will accumulate during the period of time the student is not present.
Clinical Lab Scrubs
- Each student will wear the program-approved scrubs (correct color and style indicated by the program policies) while practicing and checking off skills in the learning lab.
- All scrubs will be clean and neatly pressed.
- Tee shirt (white), for male may be worn under uniform top or with scrubs.
- Long sleeve (white) body hug type tee shirt may be worn for warmth or to cover tattoos.
- Color coordinating lab jackets may be worn in the lab for warmth.
- Only crew length white socks should be worn with pants/slacks
- White leather athletic or nursing shoes must be clean and polished.
- Shoes may not have colored trim, patches, logos, or open toes or open heels. Clogs and Crocs are not allowed.
- Shoelaces must be clean and not frayed.

Uniform Requirements/Policy
- Only official uniforms will be worn during clinical sessions.
- Lab coat (one), white, knee length.
- Insignia (patch) to be placed at mid-top of left sleeves on uniforms and lab coats.
- At least two uniforms each – No transparent or knit fabrics.
- No cut/split hems on uniform pants.
- Uniform is fresh, clean, unwrinkled, unstained and free of odors.
- Dress or skirt must be at mid-knee or below the knee in length.
- Slacks should touch the top of your shoes.
- Tee shirt (white), for male may be worn under uniform top or with scrubs.
- Long sleeve (white) body hug type tee shirt may be worn for warmth or to cover tattoos.
- Jeans or denim slacks are not permitted. Your uniform must fit loosely for ease of movement and comfort.
- Only white crew length socks (without logos/designs) should be worn with pants/slacks during clinical/lab rotations.
- White hosiery must be worn with dresses or skirts. Support hose are optional.
- Socks may not be worn with panty hose.
- Socks or panty hose should be white, clean and no visible holes.
- Underwear will be solid color (white or matching skin tone) and are traditional cut.
- Clean white, closed heel and closed toe white shoes will be worn with scrubs.
- The lab coat is used to cover the fresh uniform prior to entering the clinical area and anytime the student exits the clinical unit (breaks, lunch, or going to other areas of the health care facility. Students may wear a lab coat for warmth at the clinical site.
- White leather athletic or nursing shoes must be clean and polished.
- Shoes may not have colored trim, patches, logos, or open toes or open heels. Clogs and Crocs are not allowed.
- Shoelaces must be clean and not frayed.
- Nametag is worn on left side whenever in uniform, scrubs, or lab coat/jacket. The School ID will be used as a nametag. The student may purchase the device for suspending the ID from the CBC Bookstore or other source.
• Nametags must be worn at all times while in clinical setting or while attending conferences. If you do not have your nametag, you must go home to get it and will be counted absent until you return.

• No jewelry will be worn while in uniform. The exceptions are a watch will a second hand, and a plain wedding band. A working watch with a second hand is required.

• Absolutely no public smoking while engaged in program activities. This rule also applies to ALL College sponsored activities during the year.

• You must have your completed uniform by the deadline indicated by the campus instructors.

• Failure to present at the clinical site with appropriate lab coat, uniform, or clinical tools, may result in grade deduction and/or absence

• The faculty must approve all undershirts, tee shirts, etc.

Pinning Ceremony Attire
Students shall follow the same guidelines otherwise listed in the Coastal Bend College Vocational Nursing Program Student Handbook pertaining to Uniform Policy, Dress Code, and Personal Appearance with the following exceptions:

All students are required to wear all white clothing. Shoes must be white, closed toe, and flat. Student ID badges are not required with this uniform

Females
• White Nursing Dress (ordered from the bookstore or other location as long as the same style) with knee-length hem line.
• Full length white under slip.
• White or flesh tone undergarments.
• White solid pantyhose (no fish net stockings)
• Females may wear artificial nails in a natural color not to exceed 1/2 inch in length (example: French style / white tip)
• Hair may be worn down for picture taking prior to pinning ceremony but must be pulled back/up for the ceremony due to safety with open flame of pinning lamps
• Jewelry:
  • One small stud earring (5mm or less) may be worn in each ear lobe.
  • A watch approved for clinical watch is permitted but is not mandatory.
  • Wedding rings may be worn (not just simple bands)

Males
• White shirt and white pants (ordered from bookstore or other location as long as the same style)
• White undergarments
• White socks
• Jewelry:
  • A watch approved for clinical may be worn but is not required.
  • Wedding rings are allowed
Religious Attire
With the nursing student request, Coastal Bend College Nursing Program will make a reasonable effort to accommodate student attire that is related to their religious belief. Religious attire is not cultural/traditional dress; it is a requirement of religious observation. Religious attire may include but not limited to:
- Head covers
- Hairstyle
- Crucifixes
- Modesty of attire
- Yarmulkes/kippah (skullcaps), turbans, Rasrafari headdresses.

Seminars, Conferences, Clinical Site Orientation/Information Gathering
- Professional attire, which means: dress slacks, dresses, skirt and blouse. Closed toed shoes (NO flip/flops, Crocs, etc.)
- No jeans, shorts, tee shirts, or sneakers will be allowed for seminars, conferences, or clinical site orientation or visits.

Drug Screening
Drug screening test(s) are conducted as part of the Vocational Nursing Program, prior to acceptance and while enrolled in the program.

1. A student will have drug testing “for cause” at the discretion of the college or clinical/lab affiliate. Failure to comply will result in immediate drop from the Coastal Bend College Nursing program. Example: Nancy Nurse arrives at the clinical site or school impaired and/or acting suspiciously. Only Nancy Nurse will be tested “for cause.”
2. All students may/will be subject to drug testing at any “random time” at the discretion of the college or clinical/lab affiliate. Failure to comply will result in immediate drop from the Vocational Nursing program. Example: all students will have drug testing prior to admission to the Coastal Bend College Nursing Program. All students may also have drug testing later that year prior to graduation.

Drug Screening Results
1. Students with positive drug screens prior to admission will not be offered admission to the Coastal Bend College Nursing program.
2. If the student receives a positive drug screen result while enrolled, the student will be immediately dropped from the Coastal Bend College Nursing program.

Eligibility for Licensure
Applicants to the Nursing programs must be eligible for licensure. Those applicants, accepted into the program, but requiring a Declaratory Order or an eligibility statement, must present these Documents prior to being accepted into the program.
Examination/Testing Guidelines

Course grade distribution is noted in each course syllabus.

Calculators: Exams may contain dosage calculations. The use of a basic calculator will be allowed during testing. Cell phones, smart calculators, PDA, language translator or other technology will not be allowed for calculator use. Sharing calculators during the exam is prohibited.

Major exams shall consist primarily of four-option multiple choice questions. The numbers of questions and the time allowed for completion of the examination may vary. Tenets of test construction will be utilized for each exam.

Pop Quizzes
- Unannounced tests/pop quizzes may be given.
- There will be no make-up for unannounced test/pop quiz.

Chapter Examinations
- The number and format of test questions may vary by faculty preference.
- The dates of the exams are noted in advance on course calendars.
- Item analysis will be performed on all exams.
- Students may not leave the testing area until he/she has completed the examination.
- Once a student steps out of the testing area, he/she may not re-enter the testing area.
- Missed exams may be made up at discretion of instructor. Review your syllabus and Instructor Guidelines to determine each instructor’s rule.
- Make-up exams will be administered at the discretion of each faculty member.
- It is the student’s responsibility to arrange for make-up exam with instructor.
- The make-up exam must be taken before the next scheduled exam.
- Students wishing to challenge test questions, must do so in writing. The written challenge must be submitted to the faculty administering the exam within one week of viewing the answer key. Successful challenges will result in revision of the test grade for the student challenging the test question. The challenge must include the question, the correct answer and the source of the answer (page number in textbook, lecture notes, etc.).

Tutoring is highly encouraged for those students who score 78% or less on a chapter exam. It is the student’s responsibility to make arrangements for tutoring.

Test Review
- Tests will be reviewed within a reasonable time period.
- The faculty member will select the manner of test review.
- It is the student’s responsibility to arrange for individual/private test review with instructor and should occur prior to the next chapter exam.
- Test review will be arranged and conducted by the corresponding class instructor.

Final Exam
- The final examination is a comprehensive examination.
• All personal belongings will be left outside of the testing area.
• Students may be given random seating assignments.
• There will be no talking after entering the testing area.
• No cell phones/beepers or other electronic devices can enter the testing area.
• Students may not leave the testing area until he/she has completed the examination.
• If a student steps out of the testing area prior to completing the exam, he/she may not re-enter the testing area.
• Any breach of the above will result in the students being asked to leave the room and receive a grade of zero for the final examination.

Final Exams are not subject to challenge.

General Statement

If at any time throughout the academic year, a student is unable to meet clinical requirements without limitations, that student will not be allowed to participate in the clinical area, therefore, time missed will accrue and the student will be dismissed from the Nursing Program according to the attendance policy. If applicable, a student who is dismissed due to failure to meet physical or technical competencies will follow the handbook guideline for re-admission.

Examples:
• A student becomes pregnant and requires bed rest.
• A student is involved in a car accident and has broken bones requiring assistive devices for ambulation, such as wheelchair, walker, crutches, or cane.
• A student requires surgery and does not receive a full medical release within the allotted time schedule and exceeding the time missed allowed per policy.

THERE IS NO LIGHT DUTY IN THE NURSING PROGRAM.

Our main priority is to the safety of the public. Students have a limited opportunity to learn the skills required to function as a safe entry-level nurse; therefore, these guidelines will be strictly followed and enforced.

Acceptance to the Coastal Bend College Nursing Program(s) is contingent on this standard: If a reasonable accommodation cannot be achieved, the letter of acceptance will be withdrawn and academic assessment and counseling may be offered to help the student find an alternative field of study.

Grading System

To progress in the program students must maintain a “C” or better in each course in the nursing degree plan. A student must pass all concurrent courses in a single semester to progress to the next semester. Grading rubric in nursing courses is as follows:

A = 100-90
B = 89-80
C = 79-75
D = 74-70
F = 69 and below

Grades **will NOT** be rounded at any time (Example: 74.5 – 74.9 **is NOT** rounded to 75).

Each student is responsible for tracking his/her own grades. This will include all assignments, tests, and final examination grades. No extra credit assignments will be given for any courses.

Students must follow the established Coastal Bend College Grade Appeal policy, located in the college catalog to appeal the grade.

**Immunizations**

In accordance with Coastal Bend College Nursing Program application requirements and clinical site(s) policy, immunizations must be complete and up to date prior to entry into the program and maintained throughout the program.

Proof of a negative PPD tuberculin skin test must be provided before beginning the program and maintained annually.

If a PPD skin test produces a positive result, the student must obtain a negative chest x-ray. The cost is the student’s responsibility.

If unable to receive a PPD skin test due to allergy or history of BCG, student must provide proof of a negative baseline chest x-ray and complete a symptom screening tool provided by faculty.

**NOTE:**

Students with current/ pulmonary or laryngeal tuberculosis pose a risk to patients, staff and other students. Therefore, restrictions are necessary. Students with current pulmonary or laryngeal tuberculosis are excluded from the classroom and clinical activities until adequate treatment is initiated, cough is resolved, and sputum is free of bacilli on three consecutive smears.

**Insurance**

All students must carry professional liability insurance. The expense of this insurance is included in fees charged at admission and each semester.

Medical Insurance is recommended for all students. This insurance is the student’s expense.

**Medication Administration Guidelines (MAPE)**

Prior to administering medications in the clinical setting for any clinical course, each student must achieve 100% on a Medication Administration Proficiency Exam (MAPE). A MAPE is given for each clinical course at the beginning of each semester during semesters when the student is administering medications. Students may not participate in clinical prior to achieving 100% on the MAPE.
There are two sections of the MAPE:

- Medication Administration Principles (7 rights and 3 checks)
- Dosage Calculations

Students will have three opportunities to pass the MAPE prior to the beginning of clinical rotations. Students are strongly advised to practice drug dose calculations, or seek assistance.

**Nursing Program Student Performance Counseling/Warning**

A clinical warning may/will be issued to students for violations/infractions of clinical rules. The purpose of the “Clinical Guidelines” is to describe the procedural steps for the clinical faculty when issuing a clinical warning. A clinical warning includes: Verbal and/or Class I, Class II, or Class III warning. The clinical faculty has the option to fail the student after three clinical warnings or ONE Class III warning in one rotation. Refer to Appendix 1 and 2.

**Pinning Ceremony**

Any student choosing not to participate in the Pinning Ceremony must notify Coastal Bend College Nursing Program Instructor no later than 60 days prior to the date of Pinning Ceremony.

**Plagiarism**

Plagiarism is the act of taking the writings of another person and passing them off as one's own. The fraudulence is closely related to forgery and piracy—practices generally in violation of copyright laws. Please be advised that Plagiarism will not be tolerated. Students caught, will receive an “F” which could result in the student being dropped from the Nursing Program. Please refer to Code of Professional Conduct Section of this handbook as well as the Coastal Bend College Policy On Line regarding Scholastic Dishonesty and Plagiarism and Penalties for Student Misconduct.

**Readmission/Transfer Policy**

All readmission and transfer applicants are contingent upon space availability, skills competency, and must meet re-entry requirements for Coastal Bend College and the Vocational Nursing Program physical and academic requirements.

**Exit Interview**

To be considered for readmission, students must have had an exit interview with the Campus Lead Instructor or Director of Nursing Education within one (1) month after the next semester begins. Proof of Exit Interview must be on file.

During the exit interview, the Director of Nursing Education and/or the Campus Lead Instructor will develop individualized criteria for readmission. The student must have met all criteria in order to be considered for readmission into nursing program. Call to make an appointment.
Readmission

- Students must submit a letter requesting readmission and will be considered through the ‘admission and progression committee’ for readmission.
- Students may apply for readmission once.
- Students must restart with the semester which they did not successfully complete.
- Students must re-enter within one year of last attending the program if they wish to avoid starting the application process at the beginning.
- Students re-entering the program must take all clinical and nursing skills courses in addition to the courses they did not successfully complete.
- Students who have exhausted their re-entry options, or those wishing to re-enter a point longer than one year, must apply for the program and compete against all other applicants for acceptance into program and begin again with the first semester. These students are subject to ALL admission requirements of all students wishing to enter the program (including the TEAS exam). The curriculum at the time of readmission, and the student’s previous performance in the program, will drive amount of credit for prior course work. Transcripts will be evaluated for credit on an individual basis.

Intra-Campus (Site) Transfers
Transfer from one CBC site to another CBC site (Intra-campus transfers)
- Must occur at the beginning of a semester
- Can only occur if space is available
- Can occur only ONCE during the program year.
- Must meet approval from Director of Nursing.

External Transfers to CBC
Transfer from another nursing program to Coastal Bend College Vocational Nursing Program (External transfer to CBC)
- Can only occur if space is available
- Requires approval from the Director of Nursing Education.
- Must meet CBC admission criteria, including acceptable score on admissions test
- Must pass skills competency evaluation
- Must have a negative drug screen and a clear criminal background check. Each student must bear the costs of these requirements.
- Must provide a satisfactory physical examination.

Denial of Readmission/Transfer
Students may be denied re-entry/transfer into the program under any of the following conditions: The student:
- Fails the nursing skills examination.
- Fails the drug test and/or background check
- Fails to complete the exit interview within the specified time frame
- Has not completed prior semester curriculum content, and
- The program lacks resources/space to accept additional students.
Recording Devices
Recording devices are prohibited in all areas.

Review/Changes of Handbook/Nursing Program Policy
Coastal Bend College Nursing Program has the right to review and change any policy/procedure anytime during the program as deemed necessary. The student will be informed of any changes and when they will be implemented.

Schedules
Classroom days will be posted at the beginning of each semester. Clinical hours may vary. Occasionally nursing students may be required to travel or attend clinical on Saturday to meet the course objectives.

Classroom holidays correlate with the Coastal Bend College published holidays. See your College catalog for this information.

Schedules are tentative and subject to change.

Sexual Harassment
As part of the admission application, Coastal Bend College Nursing Students are required to successfully complete a mastery test in Preventing Sexual Harassment.

Social Networking Policy
Please refer to “Confidentiality” section

Student Representatives
Student representation is an integral part of the Absence Committee.

Seminars/Field Trips
Field trips and seminars may be taken throughout the program. Travel to Austin, San Antonio, Corpus Christi and other cities may be a requirement throughout the year. (See “Dress Code” and “Transportation”)

Transportation
Expense and mode of transportation to clinical sites, seminars, and Capstone is the responsibility of each student. Adequate notice will be given for travel out of the local area.
**Working While in the Nursing Program**

It is the Nursing Program’s recommendation that students not work while in the program. However, for those students who must work, employment should be kept to minimum hours so that the objectives of the program can be met.

**Selected Texas Board of Nursing Rules**

RULE §213.27 Good Professional Character
RULE §213.28 Licensure of Persons with Criminal Convictions
RULE §213.29 Criteria and Procedure Regarding Intemperate Use and Lack of Fitness in Eligibility and Disciplinary Matters.
RULE §213.30 Declaratory Order of Eligibility for Licensure.
RULE §217.11 Standards of Nursing Practice
RULE §217.12 Unprofessional Conduct

**Nursing Practice Act**

Sec. 301.252. License Application.
Sec. 301.253. Examination.
Sec. 301.257. Declaratory Order of License Eligibility.
Sec. 301.452. Grounds for Disciplinary Action.
Sec. 301.453. Disciplinary Authority of Board; Methods of Discipline.
Sec. 301.4531. Schedule of Sanctions.
Sec. 301.4535. Required Suspension, Revocation, or Refusal of License for Certain Offenses.
Sec. 301.454. Notice and Hearing.
Sec. 301.455. Temporary License Suspension or Restriction.

The student will be required to sign a student acknowledgment indicating receipt of content of this handbook and the knowledge of how to access and review this handbook.
Student Acknowledgment for Policy & Procedures and Review & Changes

I have reviewed the Policy and Procedures of Coastal Bend College Nursing Program as set forth in this handbook and listed below and am aware that Coastal Bend College Nursing Program has the right to review and change any policy/procedure at any time during the program as deemed necessary. I will be informed of these changes. A signed notification that I have received information regarding the change will be placed in my file and I know where to access it as needed.

Student________________________________ Date________________________________________

On this date the following competency was not met: (Refer to Clinical Performance Evaluation of Competencies for more complete information.).

______ In the Role as Member of the Profession:

______________: specific competency or competencies not met

______ In the Role of Provider of Patient-Centered Care:

______________: specific competency or competencies not met

______ In the Role of Patient Safety Advocate:

______________: specific competency or competencies not met

______ In the Role of Member of the Healthcare Team:

______________: specific competency or competencies not met

______ Verbal Warning   ______Class I      ______ Class II       _____Class III

Supportive comments by the clinical faculty:

Required action and/or remediation:

Faculty_________________________________________ Student_____________________________________

*Three clinical warnings or a Class III in one clinical rotation may result in a clinical failure.
Appendix 2: Coastal Bend College Nursing Program Student Performance Counseling/Warning Guidelines

Purpose Statement: The purpose of these guidelines is to describe the procedural steps for the faculty when issuing a clinical warning. A warning includes verbal and/or Class I, Class II, or Class III warnings.

1. The student’s name and date will be placed in the spaces provided at the top of the warning.
2. The faculty will place a check in the space provided by the core role competency or competencies not met. These sections include the student’s role as (1) Member of a Profession, (2) Provider of Patient-Centered Care (3) Patient Safety Advocate and (4) Member of the Healthcare Team. The specific circumstance may fall under several roles.
3. The faculty will write the specific number of the competency or competencies not met in the space provided under the core role competencies on the warning form.
4. Verbal warnings may be issued to the student at the discretion of the instructor. The faculty will document the verbal warning on the clinical warning form, which will include the student’s signature verifying the warning was received.
5. The faculty will place a check mark in the space provided by the class of the warning. The faculty will document the student’s specific behaviors and circumstances that support the issuing of a warning and the impact of the warning on the Clinical Performance Evaluation of Competencies.

The following are selected examples of warnings and not meant to be all inclusive:

<table>
<thead>
<tr>
<th>Type of Warning</th>
<th>Selected Examples</th>
</tr>
</thead>
<tbody>
<tr>
<td>Verbal Warning</td>
<td>First time being late. Chewing gum on one occasion.</td>
</tr>
<tr>
<td>Class I</td>
<td>Not following dress code- body piercing, etc…</td>
</tr>
<tr>
<td>Class II</td>
<td>Late on several occasions.</td>
</tr>
<tr>
<td></td>
<td>Insufficient work or preparation for clinical.</td>
</tr>
<tr>
<td>Class III</td>
<td>Medication error jeopardizing patient safety.</td>
</tr>
<tr>
<td></td>
<td>Non-medication error jeopardizing patient safety.</td>
</tr>
<tr>
<td></td>
<td>Patient confidentiality.</td>
</tr>
</tbody>
</table>
6. The clinical faculty will narrate specific detailed comments about the incident.
7. The clinical faculty will document the required remediation and/or action in detail that the student must successfully complete to meet the clinical competencies.
8. The clinical faculty and student will place their signatures at the bottom of the clinical warning page.
9. The clinical warning will become a permanent record in the student’s file in the division of nursing.
10. When a student receives a Verbal Warning, the next warning will be advanced to a Class I warning. When a student receives a Class I warning, the next clinical warning will be advanced to a Class II. When a student receives a Class II warning, the next clinical warning will be advanced to a Class III. If a student receives more than one clinical warning in a rotation, it will reflect on their overall grade no matter what the class is.
11. Deductions for Class II and III clinical warnings will be reflected in the Total Score in the area: Adjustment in Score due to clinical warning. The highest class of clinical warning will be the deduction taken. Example: A student receives a Class II and a Class III warning, so the deduction on the Total Score for clinical performance will be minus 10.
12. If the student has a final grade on the CPEC of a 1 or 0, there will be clear documentation that the student is not meeting the competencies. This is documented as a verbal and/or Class I, II or III Warning with copies for the student, clinical faculty and student file.
13. The clinical faculty has the option to fail the student after three clinical warnings or ONE Class III warning in one rotation.
14. A student who receives any Class I, II or III warning will not be assigned a value higher than a “1” under the corresponding Student Learning Outcome on the CPEC.
