Joint Review Committee on Education in Radiologic Technology  
2011 Program Annual Report  

Reporting Period: January 01, 2011 – December 31, 2011  

Program Effectiveness Data (PED) Form  
(Radiography, Radiation Therapy, Magnetic Resonance)  

For those programs with multiple enrollments and/or graduations during the reporting period (Jan. 1 – Dec. 31), please report the combined number for all cohorts.

<table>
<thead>
<tr>
<th>Measure</th>
<th>Results</th>
</tr>
</thead>
</table>
| **Total Number of Graduates**  
How many total students did the program graduate during the reporting period? | 2011: 8  
Report the total number of graduates from all cohorts during the January 1 – December 31, 2011 reporting period. |
| **Program Completion Rate**  
Program completion rate (PCR) is calculated by dividing the number of students who complete the program within the cohort(s) by the number who enrolled in the cohort(s) initially and subsequently (for example, transfer students or re-admits). Students who leave or do not graduate on time for any reason, such as medical leave, personal choice, or course failure, are considered as not completing the program with the original cohort.  
PCR = \[
\frac{\text{# of graduates in the cohort(s)}}{\text{# of students initially enrolled in cohort(s)} + \text{# of transfer students or re-admits}}
\] | Annual Benchmark: 50 % *  
2011: 53 %  
Include the total number of graduates from all cohorts during the January 1 – December 31, 2011 reporting period in your calculation. |
| **Credentialing Examination Pass Rate**  
Credentialing examination pass rate is defined as the number of graduates who pass the American Registry of Radiologic Technologists (ARRT) credentialing examination or an unrestricted state licensing examination compared with the number of graduates who take the examination.  
Consistent with JRCERT STANDARDS, programs must document a five (5) - year credentialing examination pass rate average of not less that 75% at first attempt within six (6) months of graduation.  
“Candidate Exam Results” report can be found at www.arrt.org under the Program Director Web site. Select “Exam Reports and Statistics,” “Candidate Exam Results,” and “Report Based on Exam Date” using the reporting period of 01/2007 - 12/2011. | 5-Year Average Pass Rate (at 1st attempt within six (6) months of graduation): 82 % *  
Provide a complete copy (ALL PAGES) of the ARRT “Candidate Exam Results” report covering the reporting period January 1, 2007 – December 31, 2011.  
Note: If results on the ARRT report differ from records maintained by the program, attach additional clarifying information. |
| **Job Placement Rate**  
Job placement rate is defined as the number of graduates employed in the radiologic sciences compared to the number of graduates actively seeking employment in the radiologic sciences.  
Consistent with JRCERT STANDARDS, programs must document a five (5) - year average job placement rate of not less than 75% within six (6) months of graduation. | 5-Year Average Job Placement Rate (within six (6) months of graduation): 87.5 % *  
Consider only graduates during the period January 1, 2007 - December 31, 2011 who actively sought employment. |
| **Enrollments**  
What was the number of new students who began the program during the reporting period (January 1 – December 31, 2011)? | 2011: 15 |

*Provide an analysis and action plan, including meeting minutes to document the discussion of analysis and action, for any category when result is less than benchmark.
