

Housing Accommodations Request Process

Sources of information used for determining a disability and/or accommodations may include a student's self-report, direct observation and interaction with the student, and/or documentation from qualified evaluators or professionals. **To receive academic accommodations students with disabilities 1) must self-identify with the Office of Disability Services 2) must present appropriate, comprehensive and current documentation regarding their stated disabilities.** Once a student has met these requirements, reasonable accommodations are determined on a case-by-case basis by the Disability Service Office in consultation with the student.
